PAALALA: Mag-text lamang sa mga numero at ang aming tanggapan ang makikipag-ugnayan sa inyo.

MAYOR Emmanuel MALIKSI

Municipality Naic, Cavite

Ayuda para sa mga Barangay BHW Presidents and Members

Nagkaroon po kanina ng pagpupulong ang mga Barangay BHW Presidents kasama ang ating buhiting Mayor Jun Dualan.

Bilang isa sa mga frontliners ng barangay ay kinamusta po ang mga BHW sa mga kinaharap nilang problema sa barangay partikular sa SAP at pamimigay ng relief.

Nagkaloob po ang ating Mayor Dualan ng relief package para sa 247 BHW ng Naic.

Imus holds General Community Quarantine orientation

Bilang paghahanda sa transisyon mula sa Enhanced Community Quarantine patungo sa General Community Quarantine o GCQ, maaga nating sinimulan ang orientasyon sa business sector ng lungsod.

(Story on page 2)

City Government of Dasmariñas

PARA SA KAALAMAN NG PUBLIKO:
ANG LAHAT NG DEPARTAMENTO/OPISINA NG PAMAHALAANG LUNGSOD AY MAGBUBUKAS NA SIMULA LUNES, IKA-18 NG MAYO. ANG OFFICE HOURS AY MULA 8AM-5PM, LUNES HANGGANG SABADO.

PAMAHALAANG LUNGSOD NG DASMARIÑAS

City Government of Bacoor

Bacoreños return home after being stranded at Cebu and Palawan

Matapos ang ilang buwang na-stranded sa ibang lugar, 12 sa Cebu at 2 sa Palawan ay nakauwi na sa kani-kanilang pamilya sa tulong ng Pamahalaang Lungsod ng Bacoor sa pangunguna ni Mayor Lani Mercado Revilla.

Sa direktibo ni Mayor Lani na makipag-ugnayan at makipagtutulongan ang City Tourism Office at PESO Bacoor sa Department of Tourism ay nakauwi ng matiwasa ang 14 na Bacoreño na na-stranded sa malalayong lugar dahil sa ECQ.

Imus holds General Community Quarantine orientation

Ilan sa mga katanungang sinagot ng ating mga tagapagsalita ay:

1. Ano ba ang mga dapat paghandaang medikal upang muling makapag-operate ang negosyo?
2. Sinu-sino o anu-ano ang mga karagdagang negosyo na papayagan na magbukas sa panahon ng GCQ?
3. Ano ang mga kailangan ipatupad sa opisina, tindahan, pabrika at workplace upang masiguro ang kaligtasan ng lahat?

Para sa Incident Command System

Batch 1 - April 21 (54 participants from 20 Essential Businesses) Supermarkets, Convenience Store, Pharmacies, Food Establishments

Batch 2 - April 22 (32 participants from

Banks, Malls, Pawnshops and Factories)

Para sa Requirements for Resumption/Continuation of Business under the new norm

Batch 1 - May 7 (25 companies from Manufacturing, Land Development and Construction)

Batch 2 - May 8 (45 companies - banks, malls, pharmacies, supermarkets, convenience stores)

Ito ay pinangunahan ng Imus Leipo Imus Cdrmo, City Health Office at Ospital ng Imus.

Para mas maparami ang makakadalo sa susunod na orientation, magkakaroon ng WEBINAR sa susunod na linggo.

Maglalabas ng hiwalay na anunsyo para sa schedule ng webinar online orientation.

Municipality Carmona, Cavite

Distrubution of unclaimed Social Amelioration Program (SAP) of Social Welfare and Development (DSWD)

The validation and distribution of cash subsidy was conducted earlier from Social Amelioration Program (SAP) of Social Welfare and Development (DSWD) to UNCLAIMED SAP BENEFICIARIES from all barangays in our town.

This is part of National Government programs now that we are under Enhanced Community Quarantine caused by COVID-19.

For those who can't join as the beneficiary of SAP, don't worry! Because the Government of Carmona will spend P2K CASH ASSISTANCE PER HOUSEHOLD. Just wait for the announcement about the said aid.

PH STARTS TO FLATTEN CURVE; ECQ, PHYSICAL DISTANCING PAY OFF

After a month and a half into the enhanced community quarantine (ECQ), the Department of Health (DOH) reported

in a media forum Tuesday that the country is starting to flatten the COVID-19 curve.

Health Undersecretary Dr. Maria Rosario Singh-Vergeire, reported that the country is starting to experience a flattening of the COVID-19 curve. However, she warned of a resurgence of cases when the ECQ is lifted and people start being complacent about social distancing.

"Sana matulungan nyo kami na hindi pa rin dapat maging complacent," she appealed to media during the forum.

While reiterating that the decision on lifting the ECQ still lies with the Interagency Agency Task Force (IATF) for the

Management of Emerging Infectious Diseases, the DOH remains adamant in pushing for behavioral changes to slow down a possible resurgence of infections once the ECQ is lifted and eased to a general community quarantine (GCQ).

The Health Spokesperson was also joined by epidemiologist Dr. John Wong of Epimetrix Inc. Dr. Wong is an Associate Professor of the Ateneo School of Medicine and Public Health, a member of the IATF's technical working group on data analytics, and a Roux Prize Winner from the Institute for Health Metrics and Evaluation.

In his presentation,

Dr. Wong explained how we know the country is flattening the curve based on the measuring of the doubling time or duration in days for cases or deaths to double. According to him, although the rise in cases and deaths started fast, the ECQ has significantly slowed down the speed of transmission, hence flattening the curve.

"When April 1 came around, when the ECQ took effect, you'll see that the curve has started to flatten. From doubling every less than three days, now it is doubling around four days," Dr. Wong explained as he presented a graph of the case doubling time in Luzon.

CITY OF IMUS GCQ Guidelines

Cluster Schedule at Lockdown Days

Ipagpapatuloy sa Lungsod ng Imus ang implementasyon nito upang masiguro na patuloy na mananatili sa tahanan ng mga mamamayan sa panahon ng GENERAL COMMUNITY QUARANTINE.

Ngunit maaring magkaroon ng ilang pagbabago sa schedule ng pagbubukas ng mga business establishment na pinapayagan sa ilalim ng GCQ.

Home Quarantine Pass

Magpapatuloy ang paggamit ng color-coded na Home Quarantine Pass.

Para sa mga HQ Pass holder na magbabalik trabaho, pag-uusapan kung ito ay maaring ipasa na lamang sa isang kasamahan sa bahay upang makabili ng mga pangunahing pangangailangan.

f MAYOR Emmanuel MALIKSI

GCQ Guidelines

Cluster Schedule at Lockdown Days

Imus City will continue its implementation to ensure it continues to remain in the home of citizens during GENERAL COMMUNITY QUARANTINE. But, there may be some changes to opening schedule of business establishment allowed under GCQ.

□ Home Quarantine Pass Using color-coded Home Quarantine Pass will continue.

For HQ Pass holders who will return work, discussing whether this can be passed on to a home colleague to buy basic needs.

The participation of every barangay is a large part in the good GCQ implementation in our city. Because of this, we are currently meeting with the League of Barangays to organize some rules for its proper and proper implementation.

PH STARTS TO FLATTEN CURVE; ECQ, PHYSICAL DISTANCING PAY OFF

(From page 2)

In measuring the case doubling time, lower numbers mean faster outbreaks, while higher numbers mean slower outbreaks. For Luzon, except for NCR and neighboring provinces, Dr. Wong reported, "There has been flattening in a more dramatic way, very near the seven-day line."

He also reported an optimistic case-doubling time outlook at the regional level. "Because of the transport network between the National Capital Regional (NCR) and its neighbors, we consider this as one unit. So you see, where maybe about 70% of the cases are focused or concentrated, the flattening is even more evident compared to the graph of the national level, especially for mortality" Dr. Wong said about the flattening of the curve in the NCR and its neighboring provinces.

He added that NCR listed only a few additional deaths and noted that most deaths are from outside of the region. Generally, however, "deaths are approaching the seven-day level, so they're slowing down," Dr. Wong continued. Luzon has greatly improved during the ECQ. While it has a very slow outbreak to begin with, it has also exceeded the seven-day line for deaths. Dr. Wong further stated, "The biggest improvement was in Mindanao. Although it started with a very fast outbreak, they slowed down considerably by about three days." Dr. Wong specified that the country generally has a case doubling time of 4.6 days, which indicates that cases double almost every 4-5 days. Excluding NCR and its neighboring provinces, the rest of three regions placed under ECQ—Luzon, Visayas, and Mindanao—all recorded at least seven days mortality doubling time.

oratories, the Department deployed some of its staff to different laboratories. New encoders have also been hired while the department continues its call for more applicants.

Singh-Vergeire also reiterated that properly categorizing positive cases—asymptomatic, mild, severe, and critical—has helped in the quick isolating and treating of patients.

Building on Singh-Vergeire's pronouncement, Dr. Wong added that the country has more asymptomatic and mild cases. For instance, in each test sample, only 10% tested positive. "In spite of this backlog, hindi po nito napigilan na i-flatten ang curve natin. Maganda ang indication natin," the DOH Spokesperson announced.

While evidence points to the Philippines flattening the curve, Usec. Singh and Dr. Wong called on the public to remain vigilant for a possible resurgence.

"There have been lots of focus on capacity and testing, but we should also focus on how to manage the 99% who are uninfected," stressed Wong, who added that teaching behavioral changes and motivating them to follow these changes will help in delaying a resurgence. Source: doh.gov.ph

City Government of Dasmariñas

Ang pagbabawal sa pagpasok sa Lungsod ng Dasmariñas ng mga nag-de-deliver ng anumang produkto na para lamang sa "personal consumption" o personal na paggamit ng isang indibidwal o pamilya sa pamamagitan ng Lalamove o Grab at iba pang delivery service providers ay isang paraan upang mapababa ang tsansa ng transmission ng Covid-19 at ito ay naaayon sa ibinabang guidelines ng IATF dahil sa mga naitalang datos ng pagkakasakit ng Covid-19 ng mga taong nag-de-deliver hindi lamang sa Pilipinas kung hindi maging sa ibang bansa. Sa kabila nito ay may mga kababayan tayong humiling na maipagpatuloy ang pagpasok ng Lalamove, Grab at iba pang delivery service providers para matugunan ang kanilang mga pangangailangan. Kung kaya't simula sa Mayo 6, 2020 ay muli nang papayagan ang pagpasok ng lahat ng deliveries mula sa Lalamove, Grab at iba pang delivery service providers para sa "personal consumption" ng isang indibidwal o pamilya sa Lungsod ng Dasmariñas.
