

# Task Force Build Back Better makes strides in post-disaster recovery efforts

The government task force dealing with the recovery of typhoon-stricken communities has made significant gains in pursuing rehabilitation and post-recovery initiatives since its creation three months ago.

"In the months since we set out to work in November last year, we have now set into motion significant post-disaster re-

covery initiatives in three priority geographic areas involving the restoration of Cagayan, Marikina, and Bicol river basins," said Department of Environment and Natural Resources (DENR) Secretary and Task Force Build Back Better (TF BBB) chair Roy A. Cimatu.

Cimatu and TF BBB co-chairperson Depart-

ment of Public Works and Highways (DPWH) Secretary Mark A. Villar led the ceremonial dredging of sandbars along Magapit Narrows in the river's constricted midstream, and planting of bamboo propagules on the riverbank of Brgy. Bangag, Lal-lo town in Cagayan province last February 2.

The first phase of the dredging operations entails the removal of three priority sandbars along the Magapit Narrows, which significantly hinder the flow of flood water to the Aparri Delta draining to the Babuyan Channel. The sandbars cover a total of 235 hectares with a volume of seven million cubic meters.

Based on the TF BBB's latest report, about 10,000 cubic meters of sand and silt were already removed from Magapit Narrows in Barangay Bangag and Fugu sandbar in Barangay Dummun.

Technical Education and Skills Development Authority-trained local residents were hired as laborers and equipment operators to help carry out the dredging operations.

Aside from the rehabilitation of Cagayan River, the DENR has also engaged the Department of Labor and Employment (DOLE) to provide employment assistance to 120 local residents for the planting and nurturing of bamboo trees in Tuguegarao City, and the towns of Alcala, Enrile, and Gattaran.

This will be implemented through DOLE's "Tulong Panghanapbuhay sa Ating Disadvantaged/Displaced Workers" or

TUPAD program.

So far, 3,672 bamboo seedlings have been planted covering 18 hectares along the riverbank of Cagayan River.

Moreover, the TF BBB has started work on the enhancement of forest protection activities in Region 1 (Ilocos Region), Region 2 (Cagayan Valley), and Cordillera Administrative Region through a tripartite memorandum of agreement signed by the DENR regional offices in these areas last February 5.

The task force is also set to begin the widening and dredging of some portions of Marikina River on February 17.

The pilot dredging will be in the portion of the river near Marcos Highway in Barangay Kalumpang, while a simultaneous bamboo planting activity will take place on the banks of Barangay Industrial Valley Complex, both in Marikina City.

Cimatu said the restored riverbanks will be planted with bamboo to help prevent riverbank erosion and siltation, one of the strategies that the TF BBB has adopted in the rehabilitation of Cagayan River.

The DENR chief also pointed out that efforts are now underway to commence the dredging and

desilting of Bicol River and Lake Bato, as well as the rehabilitation of floodgates and rivers around Mayon Volcano.

He explained that the dredging program for Marikina River and Bicol River are also coupled with nature-based solutions, such as the planting of bamboo in stabilizing the river banks.

"We are also looking at the development of bamboo plantations so we can provide livelihood opportunities to communities in outlying areas near these waterways," Cimatu said.

From February 9-12, a total of 49,509 bamboo

# Fake COVID-19 vaccines sellers to be arrested -DILG

**As the country prepares for the arrival of COVID-19 vaccines from the WHO COVAX facility, the Department of the Interior and Local Government (DILG) directed the Philippine National Police (PNP) to be vigilant and arrest individuals who are selling or administering fake coronavirus vaccines.**

DILG Officer-in-Charge (OIC) and Undersecretary Bernar-do C. Florece, Jr. said the Department has received reports that fake vaccines are being circulated in the market as demand for vaccination increases. He said

that LGUs and the PNP must be on top of the hunt and arrest illegal peddlers of fake COVID-19 vaccines.

"Some people are taking advantage of the pandemic to make money by selling fake vaccines.

"We must be cautious sapagkat ngayon nga ay mayroon nang kaso ng mga pekeng bakuna na mismong si Pasig City Mayor Vico Sotto ang narecorded sa kanyang recent Twitter post, Sotto uploaded a picture of supermarket," Florece said.

# Task Force Build Back Better makes strides in post-disaster recovery efforts

(From page 6) culms have been planted, covering approximately 173 hectares, on the river banks of Albay (8,500 bamboo culms), Camarines Sur (30,000 culms), Camarines Norte (10,000 culms), and Catanduanes (1,009 culms). Some 151,381 bamboo seedlings are now being prepared at the DENR Bicol field offices in time for the planting season in May. The river bank stabilization activity, through the planting of bamboo culms in Bicol region was a program of the regional TF BBB led by the DENR, in partnership with the Department of Social Welfare and Development (DSWD). Around 815 beneficiaries of DSWD's Pantawid Pamilyang Pilipino Program were tapped during the planting activity. The beneficiaries received family food packs through DSWD's food-for-work program on the last day of the planting. Along with the identified beneficiaries, DPWH, Department of Trade and Industry, Department of the Interior and Local Government, Duterte administration's priority on disaster risk reduction and environmental resilience, livelihood restoration, national-level support to response systems at the community level, and support to local governments for managing recovery. "Beyond restoring these areas to their pre-disaster state, our marching order from President Duterte is to enable affected families and communities to spring back stronger and better than ever," Cimatu said. He pointed out that President Duterte the initiatives reflect the

the TF BBB to ensure post-disaster rehabilitation and recovery efforts of typhoon-hit areas. The task force is a high-level institutional platform and a more permanent body that will streamline and expedite post-disaster efforts in a sustained and integrated manner, with a clear unity of command. Members of the task force include the chairperson of National Disaster Risk Reduction and Management Council and secretary of Defense; secretaries of the Department of Human Settlements and Urban Development, Development Authority, Transportation, Interior and Local Government, Energy, Trade and Industry, Agriculture, Budget and Management, Finance, Education, Health, Social Welfare and Development, Labor and Employment, and Science and Technology; and general manager of the NHA. Administrators of NIA; Land Registration Authority; Local Water Utilities Administration; National Electrification Administration; Philippine Coconut Authority; and chair of the Cooperative Development Authority are also among the members. ## DENR shuts down LGU-run open dumpsite in Pampanga for violation of RA 9003

(From page 3) using the MRF. They just served the cease and desist order against the open dumpsite located at Barangay San Nicolas, Sta. Ana, Pampanga, for violating Section 37 of Republic Act 9003 or the Ecological Solid Waste Management Act of 2000. Likewise, it also directed Sta. Ana MENRO to provide a safe closure and rehabilitation plan within seven days. Based on the recent investigation of EMB-Region 3, the open dumpsite is adjacent to the MRF owned and operated by the municipality. However, further investigation showed that the MRF is also being operated as an open dumpsite. "They are not really using the MRF. They just make and use this as an open dumpsite," Antiporda stressed. He further stressed that the open dumpsite is located in a farmland, which causes degradation of environment and poses health hazards to the residents living within the area as the leachate from the dumped waste goes to the ground and contaminates the groundwater. "You can see napakaganda po ng ating kabukiran then lalagyan mo ng basurahan sa gitna, malalason po ang tubig sa ilalim ng lupang ito kung kaya't kailangang ma-safe closure and rehab ito," Antiporda emphasized. Source: DENR

## LIMITED COVID-19 VACCINE GLOBAL SUPPLY PREVENTS MANUFACTURERS FROM SIGNING SUPPLY AGREEMENTS WITH PH GOVT

Following recent allegations of snail-paced negotiations between the Philippine government and vaccine manufacturers, the National Task Force Against COVID-19 Chief Implementer and Vaccine Czar Secretary Carlito G. Galvez today clarified that the supply agreement negotiations are ongoing and that the current limited global supply prevents vaccine manufacturers from entering supply agreements with the government.

In an interview with ANC last 12 February 2021, Sec. Galvez emphasized that a supply agreement is a binding contract and that negotiating supply agreements is a complicated process which provides for specific details such as payment schemes and definite delivery dates, among others.

Sec. Galvez further noted due to the binding nature of supply agreements, and given the limited supply of vaccines globally, manufacturers have not been able to commit specific delivery dates, hence preventing them from entering into supply agreements with the national government. Moreover, Sec. Galvez reported that no indicative delivery dates have been provided by any of the manufacturers the country is in talks with either.

Meanwhile, with the recent confirmation that the Philippines will receive doses of the COVID-19 vaccine from the COVAX

Facility, the Philippine government has completed the first set of requirements set by COVAX which includes documents pertaining to the country's readiness to receive vaccines, as well as the deployment plan. The government is now awaiting other documentary requirements which have yet to be provided by the COVAX Facility.

"The entire vaccine cluster, with our Vaccine Czar Sec. Charlie Galvez at the helm, is doing everything to secure cost-effective vaccines for the Philippines at the soonest possible time. In the meantime, with the arrival of vaccines from the COVAX Facility just around the corner, our attention and efforts are focused towards ensuring the country's readiness to roll out the vaccines," Health Secretary Francisco T. Duque III said.

"As the entire government prepares for the COVID-19 vaccination, I call for the cooperation of everyone in addressing the persistent issue of vaccine hesitancy--we want everyone to be assured that vaccines are safe and effective. I further call on the public to continue strict and proper adherence to our Minimum Public Health Standards. Yes, vaccines will afford us a certain degree of protection, but we emphasize that prevention remains to be the best strategy to combat COVID-19,"

Sec. Duque added. Source: DOH

## DENR shuts down LGU-run open dumpsite in Pampanga for violation of RA 9003

In line with the order of Department of Environment and Natural Resources (DENR) Secretary Roy A. Cimatu to close all open dumpsites nationwide by end of March this year, DENR Undersecretary for Solid Waste Management and Local Government Units Concerns Benny D. Antiporda on Friday (Feb. 5) terminated the operation of an estimated four-hectare open dumpsite being managed by the municipal government of Sta. Ana in Pampanga province.

The Undersecretary was further exasperated when he found out that Sta. Ana Municipal Environment and Natural Resources Officer (MENRO) Bryan James Garcia, a former employee of DENR-Region 3, prepared the report used as basis for the Notice of Violation (NOV) issued to the municipal government of Sta. Ana in 2018.

The NOV was related to the operation of the dumpsite but the LGU did not act on the notice.
