

CORAL RESTORATION IN MARINDUQUE SEEN TO IMPROVE PRODUCTIVITY OF MARINE RESOURCES

Actual deployment of the coral transplantation and planting of coral fragments in coral nursery units (CNU) with the support of local fisherfolks in the Barangay Tungib-Lipata, Buenavista, Marinduque

To rejuvenate marine life in the waters off Marinduque, a province-wide coral restoration project was initiated by the Department of Science and Technology (DOST)

through the DOST-MIMAROPA regional office in Buenavista last 10-11 June 2021 and another 10 CNU in Poctoy, Torrijos this 22-23 June 2021.

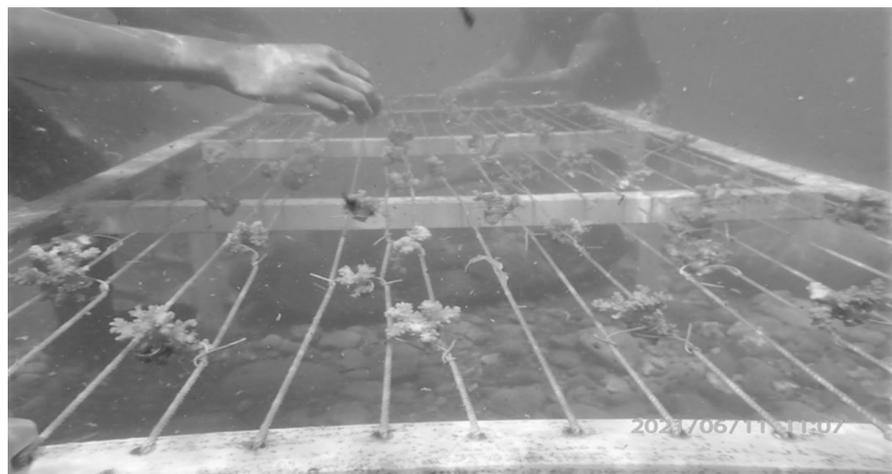

The project to restore the coral reefs in the said area is implemented in collaboration with the Provincial Government of Marinduque, the Bureau of Fisheries and Aquatic Resources (BFAR), other local government units (LGUs), and local fisherfolk groups.

The project started off with the deployment

technology off the coast of Buenavista, Marinduque. This is the first large-scale restoration effort in the MIMAROPA region that seeks to reverse reef degradation and improve the productivity of marine resources.

A total of 10 Coral Nursery Units (CNU) are already established in the Marine Protected Areas of Tungib-Lipata in Buenavista last 10-11 June 2021 and another 10 CNU in Poctoy, Torrijos this 22-23 June 2021.

CNU are used to facilitate the growth of the asexually reproduced corals, which are live coral fragments also known as the "corals of opportunity" (COP) dislodged from a colony through the natural process of fragmentation. CNU are set up 25 feet underwater and each is designed to hold 500 COPs per batch several times a

year.

The technology was developed by the University of San Carlos (USC) under the Filipinovation on Coral Reef Restoration Program of the DOST-Philippine Council for Agriculture, Aquatic and Natural Resources Research and Development (DOST-PCAARRD).

In 2018, the DOST-MIMAROPA initiated the assessment of coral reef areas in Marinduque through the adoption of the Automated Rapid Reef Assessment System (ARRAS) that successfully generated a comprehensive report and maps of the coral reef and seagrasses. ARRAS is a program for coral reef monitoring developed by the University of the Philippines-Diliman (UP-Diliman) and funded by the DOST.

The long-term monitoring project revealed that there are already major areas in the province where live coral cover is almost non-existent due to siltation and sedimentation along the coast.

Hence, high priority for management and protection efforts were recommended for the degraded

areas.

To ensure a holistic approach in addressing the problem, DOST-MIMAROPA initiated a collaboration with different stakeholders from concerned government agencies and communities. The provincial offices of BFAR and the Department of Environment and Natural Resources (DENR) spearheaded the procurement and deployment of CNU, provided technical

diving experts, conducted

Preparation measures for typhoon response protocols must be implemented

Following the Philippine Atmospheric, Geophysical and Astronomical Services Administration's (PAGASA's) announcement of the start of the rainy season, the Department of the Interior and Local Government (DILG) reminds local government units (LGUs) to undertake necessary preparedness measures and their response protocols to ensure the safety of the people during heavy rains, typhoons, flashfloods and landslides amid the ongoing COVID-19 pandemic. DILG Secretary

ect as well as the necessary permits. Meanwhile, the Provincial Government of Marinduque and Marinduque State College (MSC) provided experts for the installation, monitoring, and maintenance of the CNU and also shouldered the necessary training expenses. On the other hand, DOST-MIMAROPA

spearheaded the procurement and deployment of CNU, provided technical diving experts, conducted

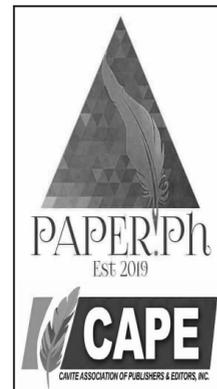

periodic monitoring and evaluation of the coral's growth and survivorship, and will conduct forums and other information awareness activities. It also ensures that the communities are involved in the activities—from the planting of coral fragments to the setting up of CNU.

By the end of July 2021, the technology will be deployed in all six municipalities of Marinduque. Source: DENR

Eduardo M. Año said that the pandemic presents unique challenges going into the rainy season, hence, "LGUs should be more alert and prepared this rainy season and must ensure that all vital aspects of local disaster risk reduction and management (LDRRM) are in place."

He emphasized that local chief executives (LCEs) are expected to be present, especially during typhoon season. "Patuloy ang ating paalala sa mga LCE, huwag maging missing-in-action (MIA) sa panahon ng kalamidad,"

DOH, UP-PGC detects more COVID-19 variants in country

The Department of Health (DOH), the University of the Philippines - Philippine Genome Center (UP-PGC), and the University of the Philippines - National Institutes of Health (UP-NIH) today report the detection of four additional Delta (B.1.617.2) variant cases, 14 Alpha (B.1.1.7) variant cases, 21 Beta (B.1.351) variant cases, and one Theta (P.3) variant case based on the latest whole-genome sequencing report.

ON DELTA VARIANT CASE:

Three of the four additional Delta variant cases are Returning Overseas Filipinos (ROF) from the Philippines on June 3, 2021. One case is currently docked in South Korea. Upon detection of the PCR-positive Filipino crew in South Korea, they were repatriated back to the Philippines on June 3, 2021.

Two cases have completed the 10-day isolation after arrival in the country and were discharged upon certification of recovery, while one is still admitted in a hospital in Metro Manila.

Meanwhile, the fourth case is a ROF who was repatriated back to the Philippines on June 3, 2021.

SEAMEO elects Sec. Briones as new VP

BRIONES ELECTED AS SEAMEO VICE PRESIDENT FOR 2021-2022

DOH, UP-PGC detects more COVID-19 variants in country

(From page 1) The Alpha variant cases arrived from Saudi Arabia on May 24, 2021. The case has completed the mandated isolation, tagged as recovered on June 10, 2021, discharged thereafter from the isolation facility, and is now under strict home quarantine as per protocols of the LGU of destination. This brings the total number of Delta cases to 17.

ON ALPHA VARIANT CASES:
Of the additional 14 Alpha variant cases detected, 12 are local cases while two are being verified as to whether these are local or ROF cases.

Based on the case line list, two cases have died and 12 cases have been tagged as recovered.

The Alpha variant cases now total 1,085. ON BETA VARIANT CASES:
Of the additional 21 Beta variant cases detected, 20 are local cases while one case is being verified as to whether this is a local or ROF case. Based on the case line list, 20 cases have been tagged as recovered and one case is currently active.

The total Beta variant cases are now 1,267. ON THETA VARIANT CASES:
The additional Theta variant case is currently being verified as to whether this is a local or ROF case.

The case has already been tagged as recovered.

Currently, the Theta variant is not identified as a variant of concern (VOC) since more data is needed to conclude whether the variant will have significant public health implications.

The DOH, UP-PGC, and UP-NIH assure the public that biosurveillance activities for the detection of COVID-19 variants shall continue amidst the increase in cases in Visayas and Mindanao.

The procurement of reagents for whole genome sequencing for the rest of the year was initiated by a grant of Php 180 million by the DOH to the UP-PGC last May 2021. After undergoing the government procurement process,

the reagents shall arrive at and UP-NIH to sequence that the government will the UP-PGC this week. samples of COVID-19 have essential information These reagents will cases regularly until the in mitigating the spread of allow the DOH, UP-PGC, end of the year, ensuring COVID-19. Source: DOH

SEAMEO elects Sec. Briones as new VP

(From page 1) On the other hand, from different countries Secretary Briones Minister of Education of Singapore His Excellency (H.E.) Chan Chung Sing was voted as the President and Chairman of the SEAMEC.

H.E. Chan Chung Sing emphasized that the education sector in the region has adapted to the COVID-19 pandemic, as Ministers of Education managed to keep schools safe and ensure learning continuity.

“There have been so many silver linings that we should be proud of which will impact education for the better. We first adapt to digital learning, we accelerated our investment in this area, from infrastruc-

As part of SEAMEO’s tradition, the current SEAMEC’s Vice President will assume presidency in the next Council Meeting in 2023.

Preparation measures for typhoon response protocols must be implemented

(From page 6)

Advisory, Año enjoined the LGUs to implement DILG's Operation L!sto Protocol for Hydrometeorological Hazards and be guided by DILG Memorandum Circular (MC) No. 2020-125 that provides preparedness measures, and other relevant issues. Operation Listo is an advocacy program of the DILG which aims to strengthen the disaster preparedness of LGUs using the whole-of-government approach.

In the same advisory, Año directed the LCEs to convene Local Disaster Risk Reduction and Management (LDRRM) Councils and conduct a pre-disaster risk assessment (PDRA) for floods, flash floods, rain-induced landslides, debris flow, storm surge, strong winds, and other hydrometeorological hazards.

He said these PDRAs are vital in the protection of the people who can get victimized by natural calamities during the rainy season. "Prevention is better than cure, sabi nga. Isa itong [PDRA] mahalagang hakbang tungo sa pagtitiyak ng kaligtasan ng mga mamamayan sa panahon at pagdating ng bagyo."

He likewise said that structural integrity and capacity of vital facilities, especially those used as evacuation centers' vaccination centers and multi-purpose buildings, LIGTAS COVID centers; health centers; and, hospitals for COVID-19 patients must be assessed.

The DILG Chief emphasized the conduct of monthly assessment and ensure top shape functionality, in collaboration with the Department of Science and Technology (DOST) Regional Offices, of all established Early-Warning Systems (EWS).

LCEs are also reminded to update the Local Contingency Plans for hydrometeorological hazards; coordinate closely with relevant agencies such as PAGASA; ensure unhampered logistics flow and supply chain management; and, enjoin family and household preparedness through the Gabay at Mapa para sa Listong Pamilyang Pilipino.
